say at least fifty will die. At 9.30 o'clock this morning nine poured out in a stream. The trainmen. bodies were at the Pittsourg Morgue seeing that one of the cars was damand five at the arnegie Morgue. The aged, started to pull them all out of the

others were brought in later.

The officials of the Panhandle road fear a worse explosion than the three which wrought so much damage yesterday. A danger line has been established 500 yards on all sides of the burning wreckage, and the railroad popular to the aged, started to pull them all out of the way.

Already the man in charge of the switch lights were burning. As the tank car passed over one of the lights the dripping napths caught on the little flame and almost instantly an explosion followed.

A second explosion occurred quickly, but the trainmen had fled and no one burning wreckage, and the railroad police are keeping the curious crowd back. Another Explosion Feared.

A few feet below the burning wreckage lies the big thirty-six inch main of the Philadelphia Company, which comes from the gas fields in the southwestern portion of the State and which supplies the McKee's Rocks and lower Allegheny districts with natural gas. It is feared that the concussion was so great yes-terday that some of the joints or even the pine itself might have been dam-axed, and if such is the case the gas, which is under great pressure, will soon force its way through and another ter-rific explosion would follow. rific explosion would follow.

About twenty cars are piled up be tween the Sheraden station and Cork's Run in the Sheraden yards. This is still a mass of flames. It covers an area of 40 by 160 feet. In this there are all kinds merchandise. The Volunteer Fire epartment of Sheraden and No. 10 Engine Company from the West End are playing streams on the burning debris. but little headway is being made, owing to the fact that the entire wreckage is saturated with naphtha and kerosene, and every now and then a fresh volume of flame shoots out from various no: tions of the smouldering ruins.

West Twenty-third Street

# flame and almost instantly an explosion followed. A second explosion occurred quickly, but the trainmen had fled and no one was hurt. The noise of the two explosions, the smoke of the fire and the crackling of the flames told the peopl of Shradn that somthing unusual was going on in thir usually paceful viley, and they crowded down the streets of the borough to watch the scene. School had been dismissed for some time, and troops of children ran from their play to see the fire. A third explosion failed to warn the crowd of impending danger, and suddenly a signantic volume of flame leaped up from the burning cars and overwhelmed the spectators on every side.
